ANNOUNCEMENTS

Got Rutland?

We have teams in every county but Rutland. Reach out, help them join the party!

It's never too late ...

... to Vermontivate! There's still plenty of time for new players and teams to join in and play!

This is my first year in Vermontivate! When I was creating an account I put in that I was "shanghied into it" but now I love it! I love the blogging and going on challenges. Working on as a school to get points and learn about sustainability could not be more fun! I like to go around the school saying hi to all the vermontivators. THANK YOU VERMONIVATE!

Design For Delight (1 like) 🌻

One of the top transportation challenges my community has is we have too many ways for transportation to school. We should start to only take buses and not be driven, because there would be less vehicles going to school every day. That means that there would be less pollution being put out. And if there is any way to do that, I'm in. So I'm either going to walk, ride my bike, or take the bus to school from now on.

LOOKING BACK. 🌻

Since I started playing Vermontivate I really changed. I care about the world way more. The world is a precious place and we are not treating it right. I learned that food is very valuable to sustainability. Money and kindness and also valuable. If we decide to change our ways we will leave a good place to live for our kids and grandkids and more!

I choose to turn off lights. It took about 2 minutes to turn off four lights in the upper and lower floors. It takes just those little things to make your parents happy when they get the light bill! It kinda felt good to save energy. I think I will change my ways and always turn off lights.
